As per agenda following decisions were unanimously taken:

Prof. B.S. Sohal (Chairman BOS, ACBS) briefed about the decision taking regarding course distribution and credit load in ACBS meeting held on July 02, 2019.

**1. Approval for the revised course curriculum of some under graduate (UG)/ post graduate (PG) courses**

Prof. B S. Sohal briefed the importance of revision of course curriculum after every 3 years as it is the requirement of regulatory body such as NAAC. He suggested that we should keep some crucial points given below in our mind when we are revising /modifying the existing curriculum.

- a. For undergraduate Hon's courses first year should be common.
- b. One or two courses of the respective program may be included in first year course. In second and third year we can include the main courses as per our program.

- c. We cannot go completely as per UGC scheme due to lack of faculty as compared to Government organization.
- d. UG and PG courses should not be of similar type as observed in the microbiology course curriculum
- e. If we add new course in the revised course curriculum we should provide new code to it otherwise examination department will face the problem.

The following decisions were made by BOS regarding approval of revised curriculum:

I. UG & PG Microbiology Course curriculum

Dr Nasib Singh did a good job to prepare the CBCS based curriculum for UG & PG Microbiology Courses but the points "d & e" were not found satisfactory. Therefore, BOS suggested revising it as per suggesting points given above.

II. M.Sc. Chemistry Course curriculum

BOS gave the approval for implementing it in the coming session. It is minor revision. No need to send it to the external expert.

III. M.Sc. Physics Course curriculum

BOS gave the approval for implementing it in the coming session. It is minor revision. No need to send it to the external expert.

IV. M.Sc Mathematics course curriculum

BOS gave the approval for implementing it in the coming session. It is minor revision. No need to send it to the external expert as the courses have been taken from UGC and as per CBCS.

## 2. Course Allotment/load distribution

In the ACBS meeting held on July 02, 2019, it was decided that course allotment and load distribution should be done by the academic committee of the respective department.

- a) Following departments submitted their course allotment/load distribution to BOS

Department of mathematics  
Department of Chemistry  
Department of Physics  
Department of Botany

The course allotment documents of the above departments have already sent to Dr Surjan Singh (Time-Table Incharge) for preparing Time-Table for the coming session

- b) Following departments have not submitted their course allotment/load distribution to BOS

Department of Zoology (BOS found pending due to lack of faculty. BOS suggested to put New Teacher for their courses and suggested to send it to Dr Surjan Singh)

Department of Microbiology

BOS suggested sending the course allotment as soon as possible to Dr Surjan Singh so that he can make the Time-Table (**Action: HoD's of respective Department**)

### 3. Time-Table/Classroom allotment

BOS suggested to Dr Surjan Singh (Time-Table Incharge) that time-table should be framed in such a way that half theory periods should be kept in morning and half in evening for proper utilization of existing facilities.

Dr Surjan Singh (Time-Table Incharge) promised to complete the Time-Table formalities up to July 28, 2019.

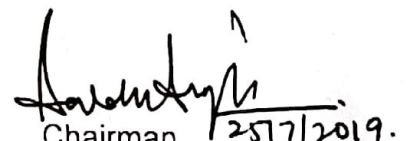

### 4. Any other discussion

Dr Vivek Sharma felt that the Comprehensive Examination for Ph.D. Students is not necessary as other universities were not also giving Comprehensive Examination to their Ph.D. Students except agriculture universities.

Prof. Sohal told the positive points and with the help of an example he explained the benefit of Comprehensive exam to the Ph.D. students.
