NOTICE

It has been observed with great concern by the University administration authorities that the some of the faculty/staff present in the University campus do not switch off their cabin/room lights & fans as & when they move out for their lunch break or leaving the University campus after working hours.

This practice makes the financial loss to the University; therefore, all the faculty/staff are advised to follow the mode of saving power in the interest of Institution and Nation.

to Pro, Baldev, tsbanipal, dean, acecm, Khem, Dean, Administrative, Dean, Dean, mehmoodaregu, Dean, Meenakshi, DR, S, Kajal, ▾

Respected Sir/Madam,

It is hereby informed that the electricity is not stable at this moment thus all the employees are requested to switch off their heaters.
With kind regards,

Dr. S.K. Chauhan

CIRCULAR

Dear Colleagues,

I wish to express gratitude to all our teachers and staff members for their cooperation and hard work in preparing the syllabi and course structures as per the curriculum framework of NEP-2020. There are some departments where the work is still not complete. May I request the respective Deans and Heads of Department to take special steps to complete the work so that the opinion can be obtained from external academic and professional experts before we ask the Boards of Studies to finalize the syllabi for approval of the Academic Council so that prospective students are given adequate time. The concerned Deans may ask Prof TS Banipal for any clarification.

I further take this opportunity to share with you the following facts:

- i) It has been observed that the electric lights in the classrooms, laboratories, teachers' offices, corridors and administrative offices remain switched on even while the rooms are not occupied, or the classes are not scheduled. This results in huge national loss with an equally atrocious cost to the University. It is requested that all of us should switch off the lights and the fans in the classrooms and our offices after use.
- ii) A very large amount of paper is wasted in printing and proofreading the successive drafts. May we take extra precautions to share the internal communications on the official emails allotted to each one of us and possibly through the ERP which is being made effective.

Regards

TS Banipal
