Activity Report National Pollution Control Day (2nd December, 2023)

1.	Academic year	:	2023-24
2.	Program driven by	:	Celebration Activity
3.	Quarter	:	Semester 1, Quarter II
4.	Program/Activity Name	:	National Pollution Control Day
5.	Program type	:	Level-1: Exposure Visit
6.	Program Theme	:	Innovation & Design Thinking
7.	Duration of the activity (in hrs)	:	8
8.	Start Date	:	02-12-2023
9.	End Date	:	02-12-2023
10.	Number of Student Participants (Minimum 50 Students)	:	100
11.	Number of Faculty Participants	:	80
12.	Number of External Participants, If any	:	na
13.	Expenditure Amount, If any	:	na
14.	Remark	:	--
15.	Mode of Session Delivery	:	Offline/Hybrid
16.	Objective (100 letters)	:	To raise awareness about clean and pollution-free environment for sustainable development
17.	Benefit in terms of Learning/Skill/ Knowledge obtained (150 letters)	:	Awareness was created among participants and local communities about clean and green and pollution-free environment
18.	Video URL (EU YouTube channel)	:	
19.	Photographs (only 2) (max size 2 MB)	:	Uploaded on IIC portal
20.	Overall report of the activity (PDF, max 2MB)	:	Uploaded on IIC portal
21.	Promotion in Social Media		Linkedin: https://www.linkedin.com/posts/eternal-university-baru-sahib-sirmour_significant-environmental-pollution-activity-7146486104936898560-YNsF?utm_source=share&utm_medium=member_desktop

National Pollution Control Day

‘Sustainable Development for a Clean and Healthy Planet’

Brief report

Akal College of Nursing and Akal College of Engineering & Technology, Eternal University Baru Sahib took a significant stride in promoting environmental consciousness by observing National Pollution Control Day under Nature & Environment Club Activity (aligned with UNDP Sustainable Development Goals). Our dedicated students and staff played a pivotal role in creating awareness within the community through various impactful initiatives:

- **Street Play & Household Education:** Informative street plays and household education sessions were organized to shed light on the profound effects of pollution and how each one of us can make a difference.
- **Green Commute:** Instead of relying on transportation, our community health care service teams embarked on a remarkable journey by foot, covering approximately 15 kilometers round-trip, demonstrating our commitment to reducing carbon emissions.
- **Vehicle-Free Campus:** Within the serene Baru Sahib Campus, our students encouraged the esteemed faculty and staff of Eternal University to embrace a vehicle-free campus for the day, setting an inspiring example of sustainable living.
- **Sewage treatment & waste management:** Nursing students visited the Sewage Treatment Plant and Bio Medical & Non-Bio MedicalWaste Management Plants to gain insights into the crucial work done by the dedicated workers in maintaining a clean and healthy environment.

Let's continue to work together towards a cleaner, greener, and more sustainable future. Small steps today can lead to a cleaner and healthier tomorrow.

Respected Sir/Madam.

National Pollution Control Day in India is observed on December 2nd every year. It's a reminder of the tragic incident in 1984 when a gas leak occurred at the Union Carbide pesticide plant in Bhopal, causing immense loss of life and highlighting the importance of pollution control and safety measures. **Akal College of Engineering & Technology** in collaboration with **Akal College of Nursing** on the behalf of **"Nature & Environment Club"** aligned with **UNDP (SDGs)** is organizing National Pollution Control Day.

For this activity we are appealing to all the members of Eternal University to avoid the use of personal vehicles in the University Campus tomorrow. We understand that this may cause some inconvenience but your efforts and solidarity for this cause will help spread a very important message to our family, friends and children and become sensitive to this SDG goal. We request all fraternity members to use the service vehicle of the campus as much as possible.

We can also take inspiration from our Akal College of Nursing students who will go on foot for their community service to nearby villages rather than using any vehicle.

We thank you for participating in this call to action.

With sincere regards

Nature & Environment Club, ACET & ACN Eternal University.
